**Red Phoenix : Hold Me: Brie's Submission, Book 6** before purchasing it in order to gage whether or not it would be worth my time, and all praised Hold Me: Brie's Submission, Book 6:

0 of 0 people found the following review helpful. Loving this series By Kindle Customer I admit, I questioned how in the world an author could write 12 relatively full novels about one person and keep it interesting. I made sure not to fall into the trap of multiple short stories to string the reader along before I ever got involved in this series. Nothing makes me more frustrated then to have a story story of 50 pages and have to go through dozens of them to get to the end. Not the case with this series. I am excited to say the series is wonderful. We learn more about the important people in Brie's life, the things most adult go through we see through Brie's eyes and can feel her pain. This one has had me crying, laughing, and truly feeling Brie grow as a submissive and as an adult. Thane's character has also grown on me. I have read the reviews, everyone has been pulling for Sir Davis; most of the way through he has pissed me off with some of the ways he treats Brie but, in this book I am starting to appreciate him and Brie and their love for one another. I have been pulling for Tono, I love his gentle, loving, quiet dominance. The bond he and Brie share is impressive, I had thought they would find their way together but, now I don't see that happening. I love that this series is not at all predictable, I have no clue what happens next, who or what we will learn about but, I love every minute of finding out what happens next. I really do love this series. I highly recommend it. 0 of 0 people found the following review helpful. I can't stop reading these books. By Kindle Customer I am hooked Brie's story is a fascinating look into some of the struggles a person can find themselves in whether you are submissive or vanilla. Yes this is fiction but it hits close to home for me. I recommend this to anyone who loves a great story. 1 of 1 people found the following review helpful. Love and trust By Customer judy This series takes the readers places that you don't expect to go. You will have a difficult time putting in down. The topic might not be what you think you're interested in, but you will miss an incredible storyline about love and trust.

When dreams come true...but with a price. Brie Bennett's submissive journey has been marked with self-discovery, humor, and sexual exploration. To her delight, she is about to enjoy the best scene ever with Master, carrying her to heights never imagined. Brie is a submissive in love, but a chain of events will lead her on an unexpected journey around the world - and it all begins with a haunting dream about Tono.
